

# Angling Adventures Tanzanian Tiger fish

## Trip Tips

### **Currency**

The local currency is the Tanzanian Shilling.

The preferred currency is US Dollars (Cash) which are accepted in many locations. Please bear in mind that the date on the US Dollar notes must be after the year 2006.

Time zone: (Sydney) - 8 hours

Travel and Transfers

On your arrival into Tanzania you will be transferred from Julius Nyerere International Airport (preferred airport for your arrival and departure, Dar es Salaam) to a hotel of your choice (we recommend Sea Cliff resort).

A photographic or scenic safari can be booked either before or after your fishing safari. Transport to the camp site constitutes either a chartered plane or by road (500km).

The charter is by a reputable company and will take 1.5 hours with an additional 2 hour drive in the Selous Game Reserve (costs on enquiry). Charter flights are the preferred means of transport due to the condition of the roads. Arrival at Dar es Salaam before 15h00 can enable a transfer by charter to the camp on the same day. By road it will take between 10 to 12 hours.

The drive will take you through beautiful African countryside and the Mikumi National Park where you will see elephant, buffalo and the occasional lion.

### **Visas and Documentation**

Your passport needs to be valid for 6 months after your departure from Tanzania.

Australian passport holder will require a visa for Tanzania.

A yellow fever certificate is required from some countries. Tanzania is a malaria country – prophylactic medication is recommended.

Must bring: - Passport, visa, yellow fever certificate, Airline tickets, US currency, and Travel Insurance.

Climate

During the months of August to December the daytime temperature will vary from 20 to 35 degrees centigrade with the higher temperatures towards December.

High humidity can be expected. While fishing there will be a strong possibility for sunburn which necessitates the application of sun screen as well as lip balm.

### **Clothing**

Loose, comfortable, cotton material khaki clothes will be the best for your adventure.

Please note that laundry is done on a daily basis, please focus more on your tackle rather than a lot of clothes. Due to Tanzania's altitude it can sometimes be chilly in the early mornings.

Here are some suggestions:

- Shorts
- T-shirts, long sleeved shirts
- Lightweight or waterproof jacket
- Hat / cap, Sunglasses
- Sun screen (SPF30 or higher)
- Insect repellent
- Lip balm, eye drops
- Binoculars, flashlight with extra batteries
- Camera, comfortable walking shoes

## Fishing tips

### **Fly Fishing**

You'll need a rod which is at least an 8 or 9 weight with a reel which holds a lot of backing.  
It is essential to have a roll of Piano wire of 25-50kg braking strain in your tiger fishing tackle box.  
Barra flies, Surface Poppers flies

### **Lure Fishing**

Stick baits, Poppers, jigs, spinners and spoons all work well.  
Your tackle box should contain a roll of Piano wire of 25-50kg braking strain.  
Replace all your treble hooks with very sharp single hooks.  
Use braided line.

### **Bait Fishing**

Bait fishing tackle and live bait tackle is similar to deep sea fishing tackle. (bait will be supplied)
